ABOUT US

- **MNR Design is one of the leading sweater manufacturing company since its inauguration in 2018. It has demonstrated its full commitment towards delivering quality products and services that enabled the organization surpass the expectation of its customers across the world. The organization's client base includes renowned international retailers and the biggest brands of the apparel industry.**
- **We are offering wide product range to the valuable clients, which is the biggest strength of this Organization. MNR Design is producing 100% Cashmere wool, 100% Merino wool, 100% Lamb's wool and wool blend products beside local and imported fancy yarn with join life. We are able to produce all kinds of jacquard knitting including intarsia in a short lead time.**
- **MNR Design has created a prominent identity for itself in the garments sector of the world by keeping commitments to our valuable clients. We believe in hiring passion and always welcome who are passionate on the apparel industry and have enthusiasm to add value in MNR family.**

OUR VISION

Global Excellence

To be a globally recognized leader in high-quality sweater manufacturing, providing innovative designs and premium craftsmanship while ensuring customer satisfaction.

Sustainability & Ethical Manufacturing

To revolutionize the sweater manufacturing industry in Bangladesh by adopting sustainable practices, ethical labor standards, and eco-friendly production methods.

Customer-Centric Approach

To consistently exceed customer expectations by delivering stylish, comfortable, and durable sweaters tailored to global fashion trends.

Innovation & Growth

To drive innovation in the sweater industry by leveraging advanced technology, skilled craftsmanship, and efficient production processes for long-term growth and success.

OUR MISSION

Eco-Friendly Practices

To integrate advanced manufacturing technologies and streamlined processes, ensuring efficiency, productivity, and cost-effectiveness.

Technology & Efficiency

To maintain fair wages, safe working conditions, and skill development programs, empowering our employees and supporting the local community.

Workforce Development

To adopt sustainable production methods, reduce waste, and use eco-friendly materials, contributing to a greener and more responsible fashion industry.
